

EVOLVE All Hands Nodes Travel Reimbursement 2026

Through the EVOLVE project, we are able to provide financial support to facilitate Node staff's attendance at the All Hands Nodes meetings in the form of a limited number of travel reimbursements.

The EVOLVE travel reimbursements will be paid after the meeting. The payment will cover travel and accommodation (reimbursement of invoices). Full details will be provided upon approval of the reimbursement application.

Costs will be reimbursed up to a maximum of 750 EUR.

Travel reimbursements are available for the All Hands Nodes meeting taking place in Turku, Finland on 15th - 18th September 2026.

To be eligible for EVOLVE travel reimbursement, the applicant must belong to one of the Euro-BioImaging Nodes and submit an abstract for a poster or oral presentation at the meeting.

Travel reimbursement recipients will be chosen by an independent committee. You can apply for the travel reimbursement as part of the registration for the All Hands meeting within the same form.

We will prioritize applications from Node staff members:

- 1) belonging to a Node whose staff did not attend previous All Hands Meetings in person or which was underrepresented
- 2) who are early career staff (less than three years working in imaging core facilities)
- 3) relevance of the abstract to the scientific programme of this year's All Hands Meeting

Timeline

- Registration opens in February 2026.
- Deadline for applying for travel reimbursements: 30 June 2026
- Evaluation and communication of results: by 31 July 2026

Travel reimbursements are made possible with funding from the European Union as part of the EVOLVE project, under Grant Agreement Number 101130986
