

VISIBILITY STARTERPACK

OUR RESOURCES FOR VISIBILITY

Enhance your project's visibility

Communications and outreach is an important part of any research project. Euro-BioImaging has compiled resources and recommendations to help you raise visibility of your work.

Recommendations

More information and resources:

info@eurobioimaging.eu

Share your project with us & the community!

Our Communications Team would love to learn about your work. Let's arrange an interview - we will write a news article for our website about your project. We can also offer speaking opportunities. If interested, please reach out!

Share your story

Social media

Digital communications is a great way to raise visibility about your Euro-BioImaging experience with your community. We've provided texts for your personal social media.

Starter texts

Publication

Ultimately, you want to publish your results. Please remember to acknowledge us. Acknowledgement is crucial to ensure the sustainability of shared research infrastructure like Euro-BioImaging.

Acknowledgement

Share Euro-BioImaging

If you think other researchers could benefit from Euro-BioImaging services, we've made it easy for you to share. Please include one of our slides in your next presentation or use our 15 minute presentation with speaker notes at a Lab Meeting/Seminar.
